

Extracurricular Activities Drug-Testing Program

The District has a strong commitment to the health, safety, and welfare of its students. Results of studies throughout the United States indicate that education alone, as a preventive measure, is not effective in combating substance abuse. Our commitment to maintaining the extracurricular activities in the District as a safe and secure educational environment requires a clear policy and supportive programs relating to detection, treatment, and prevention of substance abuse by students involved in extracurricular activities.

Purpose

Students involved in extracurricular activities need to be exemplary in the eyes of the community and other students. It is the purpose of this program to prevent students from participating in extracurricular activities while they have drug residues in their bodies, and it is the purpose of this program to educate, help, and direct students away from drug and alcohol abuse and toward a healthy and drug-free participation.

Scope

Participation in extracurricular activities is a privilege. This policy applies to all District students in grades 7-12 who wish to participate in extracurricular activities that are listed in the current student handbook and any other school-sponsored extracurricular activities not listed.

Consent Form

It is MANDATORY that each student who participates in extracurricular activities sign and return the Consent Form prior to participation in any extracurricular activity. Failure to comply will result in non-participation.

Each extracurricular participant shall be provided with the Consent Form (3350F), which shall be dated and signed by the participant and by the parent/guardian. In so doing, the student is agreeing to participate in the random drug-testing program at Hansen High School.

Testing Procedures

1. The selection of participants to be tested will be done randomly by the principal/administrative designee, and ten percent of student athletes, with a minimum of three athletes, will be tested each month throughout the school year. Names will be drawn from one (1) large pool of those agreeing to be tested.

Testing may occur on a different day, Monday through Saturday. This variable schedule will keep students conscious of the possibility of being tested at any time during the year. Each student will be assigned a number that will be placed in the drawing.

2. If the student shows signs of reasonable suspicion, the principal/administrative designee may call the student's parent/guardian and ask that the student be tested. Factors will include, but are not limited to, excessive discipline problems and/or excessive absences from school. Also, a parent/guardian may request testing of his/her student.
3. No student will be given advance notice or early warning of the testing. In addition, a strict chain of custody will be enforced to eliminate invalid tests or outside influences.
4. Upon being selected for a urinalysis test under this policy, either by random draw, reasonable suspicion, request of a parent/guardian, or a follow-up test, a student will be required to provide a sample of fresh urine, according to the quality control standards and policy of the laboratory conducting the urinalysis.
5. All students will remain under school supervision until they have produced an adequate urine specimen. If unable to produce a specimen, the student will be given up to twenty-four (24) ounces of fluid. If still unable to produce a specimen within two (2) hours, the student will be taken to the principal's office and told he/she is no longer eligible for any of the extracurricular activities. In addition, the parents/guardian will be telephoned and informed the student is unable to produce a sample for the testing procedure and that he/she may be tested at a later date to be reinstated for eligibility.
6. There is a head strip on each of the specimen bottles, indicating the validity of the urine specimen by temperature. All specimens registering below 90.5 degrees Fahrenheit will be invalid. If this occurs, another specimen must be given by the student.
7. If it is proven that tampering or cheating has occurred during the collection, the student will become ineligible for all the extracurricular activities for the remainder of the school year. This will be reported to the parent/guardian.
8. Immediately after the specimen is taken, the student may return to class with an admit slip or pass with the time he/she left the collection site. The principal/administrative designee must time and sign the pass.

#### Chain of Custody

1. The principal/administrative designee will be responsible for escorting students to the collection site. The student should bring all materials with him/her to the collection site and should not be allowed to go to his/her locker. (The administrator should not bring all the students drawn from the pool to the collection site simultaneously. Calling four (4) or five (5) students at a time allows the collections to be carried out quickly and will not

cause students to wait a long time, thereby creating a loss of important time from class. Athletes may be called after school, perhaps during practice time.)

2. A sanitized kit containing a specimen bottle will be given to each student. The bottle will remain in the student's possession until a seal is placed upon the bottle. The student will sign that the specimen has been sealed. The seal may be broken only by the lab testing the specimen.
3. If the seal is tampered with or broken after leaving the student's possession and prior to arriving at the lab, the specimen is invalid. The student will be called again as soon as possible. The student will remain eligible for extracurricular activities subsequent to a retest.

### Test Results

1. This program seeks to provide needed help for students who have a verified positive test. The students' health, welfare, and safety will be the reason for preventing students from participation in extracurricular activities.
2. At the time a student tests positive, the principal/administrative designee will notify the student and his/her parent/guardian. The student or his/her parent/guardian may submit any documented prescription, explanation, or information that will be considered in determining whether a positive test has been satisfactorily explained.
3. In addition, the student or parent/guardian may appeal by requesting that the urine specimen be tested again by the certified laboratory at a cost to the student or his/her parent/guardian.
4. If the test is verified positive, the principal/administrative designee will meet with the student and his/her parent/guardian at the school. The student and parent/guardian will be given the names of counseling and assistance agencies that the family may want to contact for help. A confirmed positive drug test will result in suspension from the team for a period of 2 weeks for the first failed drug test. Student athletes will still be required to practice, but will not be allowed to travel, dress down or participate in any scheduled athletic contest. A second failed drug test while enrolled at Hansen Jr/Sr High (any time in grades 7th-12th ) will result in immediate removal from the sports team and student will be ineligible for all extra-curricular activities for one calendar year. A third positive drug test while enrolled at Hansen Jr/Sr High (any time in grades 7th-12th ) will result in the student being ineligible for all extra-curricular activities for the remainder of their enrollment.
5. A follow-up test will be requested by the principal/administrative designee at the end of the two week suspension. Students will not be allowed to resume competitive participation or travel with the team until a negative result is submitted. The district will pay for the first follow up test and the parents/guardians are responsible for any additional follow up tests required before a positive result is obtained.

6. Information on a verified positive test result will be shared on a need-to-know basis with the student's coach or sponsor. The results of negative tests will be kept confidential to protect the identity of all students being tested.
7. Drug testing result sheets will be returned to the principal/administrative designee, identifying students by number and not by name. Names of students tested will not be kept in open files or on any computer. Result sheets will be locked and secured in a location to which only the principal/administrative designee has access.

### Financial Responsibility

1. Under this policy, the District will pay for all initial random drug tests, all initial reasonable suspicion drug tests, and all initial follow-up drug tests.
2. A request on appeal for another test of a positive urine specimen is the financial responsibility of the student or his/her parent/guardian.
3. Counseling and subsequent treatment by non-school agencies are the financial responsibility of the student or his/her parent/guardian.

### Confidentiality

Under this drug-testing program, any staff, coach, or sponsor of the District who may have knowledge of the results of a drug test will not divulge to anyone the results of the test or the disposition of the student involved, other than in the case of a legal subpoena being made upon that person in the course of a legal investigation. Once again, this will underscore the District's commitment to confidentiality with regard to the program.

### Other Rules

Apart from this drug-testing program, the Idaho High School Activities Association (IHSAA) and the coaching staff/sponsor of each sport/activity have their own training rules and requirements. Coaches/ sponsors have the necessary authority to enforce those rules. Any student who violates a rule or requirement as a member of a team or activity will be subject to the consequences as defined in those rules and requirements.
