High School Graduation Requirements

Publication of Graduation Requirements

Prior to registering for high school, each student will be provided with a copy of the current graduation requirements. Graduation requirements shall also be included in the student handbook.

Credits

Students shall be expected to earn a total of 52 semester credits in order to complete graduation requirements. Special education students who have successfully completed their IEP leading to completion of high school will be awarded a diploma.

The core of instruction is 29 semester credits:

Secondary Language Arts and Communication		9 credits
English (language study, composition, literature)	8 credits	
Speech or Debate	1 credit	

Mathematics		6 credits*
Algebra I (or meets Algebra I standards)	2 credits	
Geometry (or meets Geometry standards)	2 credits	
Secondary Mathematics of the student’s choice	2 credits	

\*(Two credits must be taken in the last year of high school in which the student intends to graduate unless the student has:

1. Earned 8 or more high school credits of mathematics that include Algebra II or higher level of mathematics before their senior year; and
2. Has completed 6 or more high school math credits prior to the fall of their last year of high school, including 2 semesters of an Advanced Placement or dual credit Calculus or higher level course

For the purposes of this procedure, the last year of high school shall include the summer preceding the fall start of classes. Students who return to school during the summer or the following fall of the next year for less than a full schedule of courses due to failing to pass a course other than math are not required to retake a math course as long as they have earned six credits of high school level mathematics.

Dual credit engineering and computer science courses aligned to the state standards for grades 9 through 12, including AP Computer Science and dual credit computer Science

courses may be counted as a mathematics credit if the student has completed Algebra II (or equivalent integrated mathematics) standards.

*\*Students who choose to take Computer Science and Dual Credit Engineering may not concurrently count such courses as both a mathematics and science credit*

Science

Secondary Science 6 credits\*  
\*(4 credits shall be laboratory sciences)

Up to 2 credits in dual credit engineering and computer science courses aligned to the state standards for grades 9 through 12, including AP Computer Science, Dual Credit Computer Science, may be used as science credits.

*\*Students who choose to take computer science and Dual Credit Engineering may not concurrently count such courses as both a mathematics and science credit.*

Social Studies

Government 2 credits  
US History 2 credits  
Economics 1 credit  
5 credits

Arts and Humanities

Interdisciplinary humanities, visual and performing arts, or  
Foreign language 2 credits

Health/Wellness

1 credit\*  
\*(For students who enter 9<sup>th</sup> grade in Fall 2015 or later, each student shall receive a minimum of 1 class period on psychomotor cardiopulmonary resuscitation (CPR) training as outlined in the American Heart Association (AHA) Guidelines for CPR to include the proper utilization of an automatic external defibrillator (AED) as part of the Health/Wellness course. Additionally, students participating in one season in any sport recognized by the Idaho High School Activities Association or club sport recognized by the District, or 18 weeks of a sport recognized by the District may choose to substitute participation for up to one credit of physical education.)

Middle School Credit

If a middle school student completes any required high school course with a grade of C or higher before entering the 9<sup>th</sup> grade, and if that course meets the same standards that are required in high school and the course is taught by a teacher certified to teach high school content, then the student has met the high school content area requirement for such course. The student shall be given a grade for the successful completion of that course and such grade and the number of credit hours assigned to the course shall be transferred to the student's high school transcript and the student's parent or guardian shall be notified in advance when credits are going to be transcribed. However, the student's parent or guardian may elect to not have the credits and grade transferred to the student's high school transcript. The student still must complete the

required number of credits in all high school core subjects identified above in addition to the courses completed in middle school, unless the student is a participant in the 8 in 6 Program.

### College Entrance Examination

A student must take one of the following college entrance or placement examinations before the end of the student's 11<sup>th</sup> grade year: ACT, or SAT.

A student may elect an exemption in their 11<sup>th</sup> grade year from the college entrance exam requirement if the student is:

1. Enrolled in a special education program and has an Individual Education Plan that specifies accommodations not allowed for a reportable score on the approved tests;
2. Enrolled in a Limited English Proficient program for three academic years or less;
3. Enrolled for the first time in grade 12 at an Idaho high school after the spring statewide administration of the college entrance exam; or
4. Eligible to take an alternative assessment. In this case the student may instead take the ACCUPLACER placement exam during their senior year.

A student who misses the statewide administration of the college exam during the student's 11<sup>th</sup> grade year may instead take the examination during his or her 12<sup>th</sup> grade year if the student:

1. Transferred to an Idaho school district during his or her 11<sup>th</sup> grade year;
2. Was homeschooled during his or her 11<sup>th</sup> grade year; or
3. Missed the spring statewide administration of the college entrance exam for a documented medical reason.

### Senior Project

A student shall complete a senior project that includes a written report and oral presentation by the end of grade 12.

### Idaho Standards Achievement Tests (ISAT)

In addition to obtaining the necessary credits as outlined above, a student will take the Idaho Student Achievement Test (ISAT) as defined by State Board of Education rules.

### Civics Test

Beginning with the class of 2017, all secondary students must successfully pass the civics test or alternate path. "Civics test" as used herein means the 100 questions used by officers of the United States Citizenship and Immigration Services as a basis for selecting the questions posed to applicants for naturalization.

Any student who participates in a United States Government and Politics course and an associated college credit-bearing examination shall be deemed to have met this requirement.

The District will determine the method and manner in which to administer the civics test. A student may take the civics test, in whole or in part, at any time after enrolling in grade 7 and may repeat the test as often as necessary to pass the test. The District will document on the student's transcript that the student has passed the civics test.

The applicability of this requirement for students who receive special education services will be governed by the student's Individualized Education Plan.

### Waiver of Requirement

Graduation requirements generally will not be waived under any circumstances. However, in rare and unique hardship circumstances, the principal may recommend, and the Superintendent may approve, minor deviation from the graduation requirements.

### Alternative Programs

Credit toward graduation requirements may be granted for planned learning experiences from accredited programs, such as summer school, college and university courses, correspondence courses, and online/virtual courses.

Credit for work experience may be offered when the work program is a part of and supervised by the school.

All classes attempted at Hansen Jr/Sr High and all acceptable transfer credits shall be recorded on the transcript. All grades earned, including failures and retakes, shall be recorded as such and utilized in the calculation of Grade Point Average (GPA) and class rank. Credit shall be awarded only once regardless of repetition of the course.

### Honor Roll

A student must have a minimum GPA of 3.0 to be placed on the honor roll. Specific information regarding honors at graduation is included in the student handbook.

### Class Rank (GPA)

Class rank is compiled from semester grades.

### Early Graduation

Early graduation may occur when a high school student completes the number of credits required by the school district prior to completing eight semesters of high school work.

The student must petition the school superintendent and local school board to graduate early.

Students who choose to complete graduation requirements early and stop attending Hansen High School the minimum periods required by policy are no longer eligible for interscholastic IHSA activities.

Students who choose to complete graduation requirements early will be allowed to participate in the regularly scheduled graduation and receive the diploma at that time.

The Superintendent is authorized to create any procedures necessary to assist students to achieve early graduation as well as create incentives for participation in any early graduation program. Existing programs providing incentives to complete coursework early are described in Policy 2435 Advanced Opportunities.
